Date: 23 June 2016

## MEMORANDUM

To/A : DTOs, DSOs, LEXGLIMOS  
From/De : HSE Safety Training (Rosaria MARRAFFINO, Christoph BALLE)  
Cc : HSE Management, SIR Support, Head of Access Control (Rui NUNES)  
Subject/Objet : New and revised online safety courses on SIR application

---

As of Friday, July 1<sup>st</sup> 2016 onwards two online courses available on CERN's application SIR (<http://sir.cern.ch>) will be replaced by completely revised versions. In addition, a new online course on cryogenic safety will be available.

<b>New / revised course</b>	<b>Removed course</b>	<b>Training Rank Description</b> -- remains unchanged --
Safety at CERN	Safety during LS1	CERN Safety Introduction
Electrical Safety - Awareness (Module 1, Module 2)	Electrical Safety - Awareness (Introduction, Elementary Concepts, Risk, Risk Prevention, Summary)	Electrical Safety - Awareness
Cryogenic Safety - Awareness	-	Cryogenic Safety - Awareness

Since the 'Training Ranks' of the concerned courses remain unmodified, the changes are transparent to ADaMS and will therefore have no impact on the current individual access rights of the CERN population.
